

Reading Milestones

Reading is a complex skill which requires strong language comprehension and word recognition skills. What does reading look like at different ages?

Pre-Kindergarten

- “Reads” familiar signs
- Matches some letters and sounds
- Learning to rhyme and count syllables
- Enjoys listening to stories
- Understands oral directions

Kindergarten

- Understands left-right orientation for books
- Recognizes letters and sounds
- Recognizes the beginning sounds of words and some sight words
- Makes predictions using illustrations from stories

1st Grade

- Can identify new words by matching the letter to the sound
- May still read word-by-word, but fluency is increasing
- Retells familiar stories

2nd Grade

- Uses phonics knowledge to sound out new words
- Reading fluency increases and child moves from “Learning to Read” to “Reading to Learn”

Services for Literacy at the USLHC

- Diagnostic evaluations and individual therapy services are offered at the University Speech-Language-Hearing Clinic (USLHC) at the University of Houston main campus.
- All services are provided by graduate students in the Department of Communication Sciences and Disorders under the supervision of a licensed and certified speech-language pathologist.

Resources to Support Reading Development

Suggestions to develop literacy:

- **Read** early and often.
- **Make it fun!** Ask questions while reading. Use voices for the characters.
- **Choose books** on topics your child enjoys.
- **Contact** your pediatrician, a speech-language pathologist, or your child’s teacher if you have concerns about your child’s reading.

Where to Find Books

- Reading Rockets (online)
- Maya’s Book Nook (online)
- Storyline Online (online)
- Your local library

Where to Find More Information

- Florida Center for Reading Research
- PBSkids.org

SEEK

FIND
