

EAB Navigate Quick Start Guide: Viewing Results for Navigate Student App Polls

Access the Navigate icon in the **AccessUH** portal.

UH Staff may now access student responses to the Intake Polls and Quick Polls, directly through the EAB Navigate platform in order to provide outreach for student success.

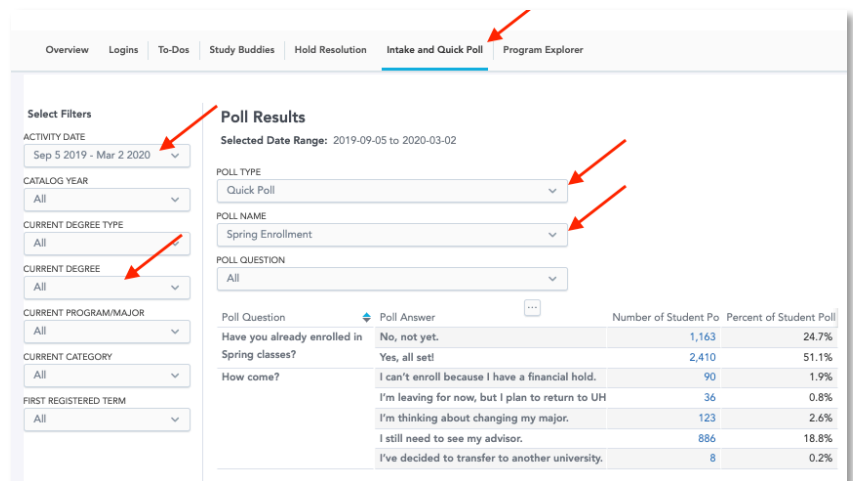

About Navigate Student App Polls

- The **Intake Poll** asks students to self-report their major and classification; intents to participate in such programs as financial aid, commuting, or Learning Abroad; and interest in activities like getting involved, working on campus, or volunteering. Intake Poll responses are used to customize the Navigate Student app content that students see, and can also be used by relevant university offices to proactively reach out to students. The Intake Poll is reset each new term on the first day of the term, and students must respond to it in order to use the app.
- **Quick Polls** are pushed to students in the app and allow students to respond to questions in real time. UH uses a limited set menu of three Quick Polls each fall and spring to solicit student intent related to enrollment and perceptions about their progress in that term. Quick Poll responses are used to guide students to resources and advisor assistance.
